

**Read the following passage and mark the letter A, B, C, or D to indicate the correct answer to each of the questions.**

Email is a short word for electronic mail. You create texts and send them over a network of computers. The first emails go back to the 1960s. The invention has influenced our lives and emails have become a popular means of communication. There are many advantages of emails. Firstly, emails are fast. They are delivered at once around the world and you don't have to wait for days to get a response or answer. Secondly, the language used in emails is simple and informal. You can write and send an email quickly without spending too much time thinking about the choice of vocabulary and grammatical structures. Thirdly, emails are environment-friendly. They do not use paper, so they save a lot of trees from being cut down. Finally, emails can also have pictures in them. You can send birthday cards or newsletters as emails. In conclusion, emails are a quick and easy way to stay in touch with family and friends, and they play an important part in our modern lives.
