Read the passage and answer the questions.

Hello! I'm Sinem. I'm 11 years old. I have school 5 days a week. In school, I have some rules that I need to obey. I need to arrive on time for my lessons this means I need to leave my home at 7 am. I need to be **quiet** during the lesson, I must do my homework on time. If I do my homework on time, my parents will let me watch an extra hour of TV. My responsibilities don't end up in school. At home, I need to obey some rules too. For example, when I wake up, I need to make my bed and tidy up my room, iron my clothes, help my parents to set the table before we eat. After that, I help them to load/empty the dishwasher, and finally take out the trash. I also have responsibilities to people around me like my family and my friends. I need to keep my promises and behave others with respect. I also have a dog named 'Lucky' I need to take her for a walk every morning and feed her three times a day.

Circle True (T) or False (F).

1) She needs to clean her room before leaving it. T / F
2) She feeds Lucky 5 times a day. T / F
3) She needs to leave her home at 9 am. T / F
4) When she finishes her homework on time, her family takes her to the park. T / F

Fill in the blanks.

1) If the dishes are dirty, I put them into ..... .
