

1- Complete the text with the past form of the verbs in brackets

A CLOSE ENCOUNTER WITH A BEAR:

Last year I (live) a scary but exciting experience. I (go) camping at Blue Lake with my school friends for a week. The first days were normal. We (put) up the tent, collected wood and (swim) in a river. We also played songs at night. We (know) that there were some bears around the lake. They usually look for food, so we put our food outside the tents. We also kept our tents clean so we put the garbage far from them in safe places.

I like exciting experiences so I actually wanted to see a bear. I know bears are dangerous, but they make the camping experience more exciting. I was a little sad because I (not see) any bears during the first days. But, the last day, a Friday, we (have) a close encounter with a bear.

We were in the tents when we (hear) strange noises. From our tents we saw an enormous brown bear! It (break) into the bus looking for food. Probably there was some food inside the bus so the bear was attracted to it.

Our leader, Mark, (have) a lot of experience camping so he calmly (take) us out of the tents in small groups to a van for our safety. From the van we (see) that the bear got out of the bus and (move) to the tents to look for food.

We also (laugh) when the bear (play) with a soccer ball. It was funny. Finally, the bear (not find) any food so it (start) moving away from the tents. At the last minute, it (turn) its head back towards the van and (look) us in the eye. Its look was scary to everybody, but to me it was awesome.

2- Complete the questions and choose the correct answer.

1- Where the author and his friends (go) last year?
