Spider-Man

Everyone loves Spider-Man! His real name is Peter Parker, and he is a typical high-school boy, until one day he visits a science museum with his class and everything changes.

Word check

Bites (v)	muerde
to hide	ocultar

A radioactive spider escapes, bites Peter and gives him superhuman powers. Like a spider, he has the ability to climb walls and is extremely strong and fast. Peter is also very intelligent and makes a web-shooter – he wears this on his wrist, and sometimes shoots a long thread to swing from. He also makes his famous red and blue costume with a mask to hide his face. Peter is an orphan, and lives with his aunt and uncle. When a thief kills his uncle, Peter decides to dedicate his life to fighting crime. He has a lot of enemies, including The Green Goblin (his friend's father!) and the Sandman. Spider-Man's adventures are always very exciting!
