#### The Shichi-go-san Festival

Shichi-go-san is a Japanese festival. The Japanese celebrate it on 15 November every year. This is because people believe it is a day of good luck for all Japanese people.

Shichi-go-san means “seven-five-three” and the festival is for children who are seven, five and three. The Japanese think these ages are very important years. Japanese parents celebrate Shichi-go-san as their boys turn three and five and their girls turn three and seven.

At the age of seven, a girl wears *obi* - the piece of cloth worn round the waist over the kimono - for the first time. At the age of five, a boy wears his first *hakama* pants – the pants that Samurai wore in the past - in public. The age of three is important for the Japanese too. They think it is time children can let their hair grow.

On this day, children often dress up like the adults in the ancient times and pretend to be grown up themselves.

**VI. Read about traffic problems in two cities. Match the city with its problem.**

**A. Ho Chi Minh City**

**B. Bangkok**

In Ho Chi Minh City, it is not strange to see the sight of a street that is crowded with vehicles. People cannot move and their health is affected by polluted air from exhausted fumes. What are the reasons? The citizens in the city use many personal vehicles to go from one place to another. They aren't used to transporting by public transports. May be because the bus drivers are careless, impolite to them or the taxi fare is too high for some people.

Bangkok is world renowned for its terrible traffic problems, so getting around on the roads is a bit of a nightmare. In my opinion, there are 3 main causes of Bangkok traffic jams. First, the quality of public transportation is low. Bus is of low quality and causes congestion. Second, the BTS and MRT are not enough for users. Finally, the most important cause of traffic jam is car accidents. Bad bus drivers cause accidents frequently and make the road stuck for hours.
