The stars are usually actors and actresses. Most people do not even look at the name of the director or producer, except one – Steven Spielberg. When he was a little boy, his father showed him how to use a camera. Later, he got his own camera and started to film things like model train crashes, stories about monsters and horrible murders. He made his first film at home at the age of twelve. It was a cowboy film, three and a half minutes long, and it costed \$10 to make.

When he was sixteen, he made a science-fiction film more than two hours long. Making films was his great hobby – much more fascinating for him than school. Of course, Steven wanted to go to film school. But his high school grades were not good enough. So he just went along to Universal Studios and asked for a job. Spielberg sometimes uses a lot of complicated effects – in the *Indiana Jones* films, for example. But, like in *Duel*, he can create a fantastic atmosphere even without special effects. *E. T.* is a success because of the feeling and reactions of the children. In 1994, he won the most important film prize, the Oscar, for *Schindler's List*. The secret of Spielberg's success is that the stories in many of his films somehow look as if they could happen to ordinary people like you and me.

29. Steven Spielberg started filming at the age of 16. _____
30. His marks at school were too bad to go to film school. _____
31. In some films, for example *Duel*, there are no special effects. _____
32. *E.T.* was such a great success that he got the film prize, the _____
Oscar, for it.
