

Name: _____

Grade: 7

Subject: Math

Activity # 1: Translating Algebraic Expressions

Direction: Translate the given phrases in column A to its mathematical phrases in Column B. Write only the letter on the space provided.

COLUMN A

COLUMN B

- | | |
|--|--------------------|
| _____ 1. The difference of a number x and eight | a. $3(4 + x)$ |
| _____ 2. The average of two numbers x and y | b. $\frac{xy}{z}$ |
| _____ 3. the sum of x and three | c. $5x + 3y$ |
| _____ 4. x squared | d. $2x + 4$ |
| _____ 5. Thrice the sum of x and y | e. $x - 8$ |
| _____ 6. five less than twice a number x | f. $\frac{x+y}{2}$ |
| _____ 7. multiply 3 by the sum of four and x | g. $3(x + y)$ |
| _____ 8. four more than twice a number x | h. $x + 3$ |
| _____ 9. five times x increased by three times y | i. $2x - 5$ |
| _____ 10. product of x and y divided by z | j. x^2 |
