Getting Around Hong Kong

Hong Kong has an excellent transportation system. If you fly there, you will arrive at one of the most modern airports in the world. And during your visit, there are many ways to get around Hong Kong.

1

These have run in the streets of Hong Kong Island since 1904. They have two decks, and they carry 230,000 passengers a day. You can travel on six routes, totaling 30 kilometers (about 19 miles). You can also hire one for a private party with up to 25 guests – a great way to enjoy Hong Kong!

2

Take one of these to cross from Hong Kong Island to Kowloon or to visit one of the other islands. You can also use them to travel to Macau and Guangdong. They are very safe and comfortable, and one of the cheapest boat rides in the world.

3

Hong Kong's underground railway is called the MTR – the Mass Transit Railway. It is the fastest way to get around. You can catch one from the airport to all the major centers in Hong Kong. The MTR carries 2.3 million passengers a day.

4

This is found on Hong Kong Island. It pulls you up Victoria Peak, which is 552 meters (about 1,800 feet) above sea level, the highest mountain on the island. The system is over 120 years old. In that time, there has never been an accident. Two cars carry up to 120 passengers each.

B Complete the chart about each type of transportation. Where you cannot find the information, write NG (not given).
