

Lesson E Writing

A Read the text. Answer the questions.

Your job is important, but to have a healthy life, you should spend time away from work. First, leave your laptop at the office. If you have to do something important, go to work early the next day. Also, when you get home, don't send work emails and texts. Take a break. Second, when you're not working, you should spend time with your family and friends. You should talk to them and listen to them. Try not to think about work. Finally, find time to exercise. When you exercise, you feel happy. With exercise, you can forget all your work problems and relax. Follow this advice and always remember there's a life outside your job.
