8. _____ of the Moon was one of the greatest human developments.
9. Her singing _____ is so interesting.
10. Why are you _____ in studying science and technology?

C. READING

Read the text and do the tasks.

BACK TO THE MOON!

In 1969, astronaut Neil Armstrong became the first person to set foot on the Moon, taking a giant leap for mankind. This was the first time anyone had walked on the surface of another world. Eleven more astronauts walked on the Moon over the next few years, but no more have visited since the year 1972. Do you think it's time we went back?

Exploration of the Moon did continue after the astronauts left, but by robots instead of people. Remote control probes and satellites have helped us to learn more about our neighbour in space. They have shown that there is a lot more exploring to do, but astronauts would be needed for that! The problem is that sending humans to the Moon is very expensive. Even with all the advances in technology that we have made since Neil Armstrong's time, SA's idea is not to make the spaceships and equipment needed themselves, or even just with other space agencies, but to also work with businesses here on Earth.

A. Answer the following questions.

1. When did Neil Armstrong set foot on the Moon?

2. Was this the second time an astronaut had walked on another planet?

3. How many astronauts walked on the Moon over the last few years?

4. Can robots replace the astronauts to explore the Moon?

5. What is the problem of sending people to the Moon?

B. Put True (T) or False (F) at the end of the following statements.

1. ____ There have been more visits to the Moon since the year 1972.

2. ____ We can learn more about our neighbour in space from remote control probes and satellites.

3. ____ Exploration of the Moon stopped after the astronauts had left.

4. ____ It is cheap to send humans to the Moon.

5. ____ The advances in technology have been made since Neil Armstrong's time.

D. WRITING

I. Finish each of the following sentences so that its meaning stays the same.

1. My father always encourages me to study hard in order to have a better future.

- I am always _____
2. She wants to become a doctor, so she usually studies hard.
