Bethany Hamilton

Bethany Hamilton fell in love with surfing at a young age. She went surfing every day after school and even won competitions when she was only eight years old. Bethany felt peaceful and happy when she surfed, and it was a very important part of her life.

One day, when surfing, she was attacked by a shark. She survived the attack, but she lost her left arm. After such a terrible experience, many people would give up surfing and stay away from the water forever. But Bethany taught herself to surf with just one arm. She was surfing again after only one month! She even won a competition just three months after the attack.

Eric Yuan

Eric Yuan was born in China. When he was a young man, he traveled 10 hours to visit his girlfriend. This difficult journey made him think about how people communicate over long distances. After college, he tried to follow his dream of working in the US. He failed to get a visa to the US, eight times. But Yuan didn't give up.

He kept trying, and in 1997, he succeeded. He didn't speak any English when he arrived, but he studied hard and learned to speak well. After seven years in different jobs, he started his own company and called it Zoom.

Now, Zoom is a very successful technology company. It's used by millions of people every day. Eric even married the girlfriend he traveled for hours to see. He says those difficult journeys helped him become a success.
