

Use the Glacial Simulation again by clicking [HERE](#) to answer the following question.

Based on what you have learned by experimenting with variables in the Glacial Dynamics Simulation, order factors that lead to glacial retreat. Which phenomena initiates the process of glacial retreat, and in what order to the other events transpire, ultimately resulting in glacial retreat?

(4 items)

(Drag and drop into the appropriate area)

glacial thinning

decreased glacial
ice flow rate

glacial retreat

decreased
precipitation
