The Scientist - Coldplay

Come up to meet **he/you**
Tell you **I'm/she's** sorry
You don't know how lovely you **am/are**
I had to find **we/you**
Tell **you/he** I need you
Tell you I set **you/they** apart

Tell me your **ideas/secrets**
And ask me your **doubts/questions**
Oh let's go back to the **start/beginning**
Running in **circles/squares**, coming up tails
Heads/Minds on a science apart

Nobody said it was **difficult/easy**
It's/They're such a shame for us to part
Nobody said it was **normal/easy**
No one ever said it would be this **hard/easy**
Oh take me back to the **end/start**

I was just guessing at **letters/numbers** and figures
Pulling your puzzles apart
Questions/Doubts of science, science and progress
Do not **talk/speak** as loud as my heart

Tell me **you/they** love me
Come **back/again** and haunt me
Oh and I rush to the **end/start**
Running in **circles/triangles**, chasing our tails
Coming back as we **am/are**

Nobody said it was **easy/difficult**
Oh **it's/I'm** such a shame for us to part
Nobody said it was **complicated/easy**
No one ever said it would be so **difficult/hard**
I'm going back to the **start/beginning**
