1. Look at the bar line chart. The bar line chart shows the number of cups of tea Mr.Tan sold [4] ever five days.

- On which day did he sell the fewest cups of tea? _____
- What was the increase in the number of cups of tea sold from Day 3 to Day 5? _____
- Use the data from the bar line chart to complete the table.

| Day | 1 | 2 | 3 | 4 | 5 |
|-----------------------|---|---|---|---|---|
| Number of cups | | | | | |

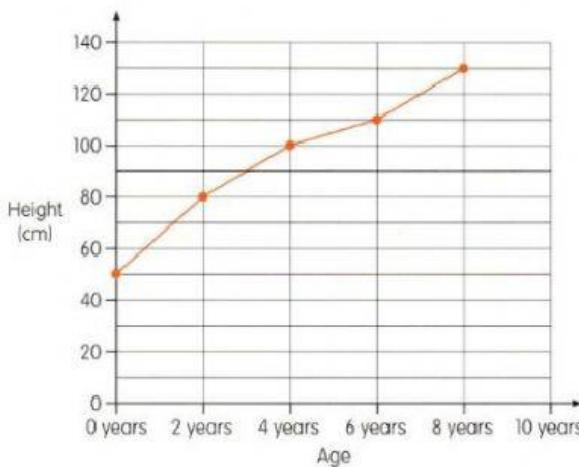

2. Look at the bar line chart below. The bar line chart shows the amount of water that leaked from a completely filled tank over four days. [4]

- How much water leaked from the tank on Day 1? _____ ml
- On which day did the most amount of water leak? How much water leaked? _____ ml
- How much more water leaked on Day 4 than on Day 3? _____, _____ ml
- At the end of Day 4, the tank was empty. What was the capacity of the tank? _____ ml

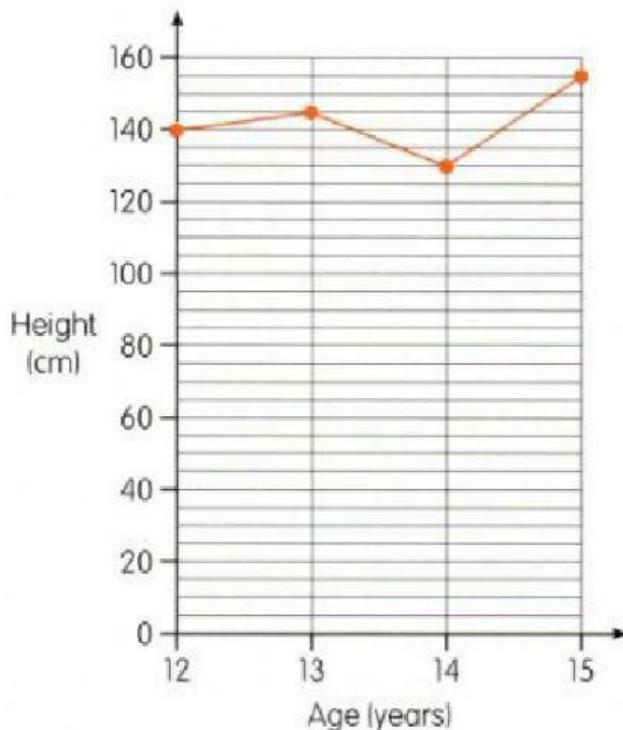

[3]

3. Look at the graph below. The line graph shows Cailin's height from birth to 8 years old.

- How tall was Cailin when she was 4 years old? _____
- How old was Cailin when she was 130 cm tall? _____
- Did Cailin's height exceed 1m before or after she was 6 years old? _____

4. Look at the line graph below. The line graph shows Emma's height from 12 years to 15 years of age. [2]

a. There is a mistake in the line graph.

Draw a ring around the mistake.

b. Explain why this part of the graph is wrong.

5. Here are the data set of a number. Find each mode from the data. [3]

a. 2, 4, 6, 2, 2, 6, 4, 2, 3, 1, 3, 2. **The mode:** _____

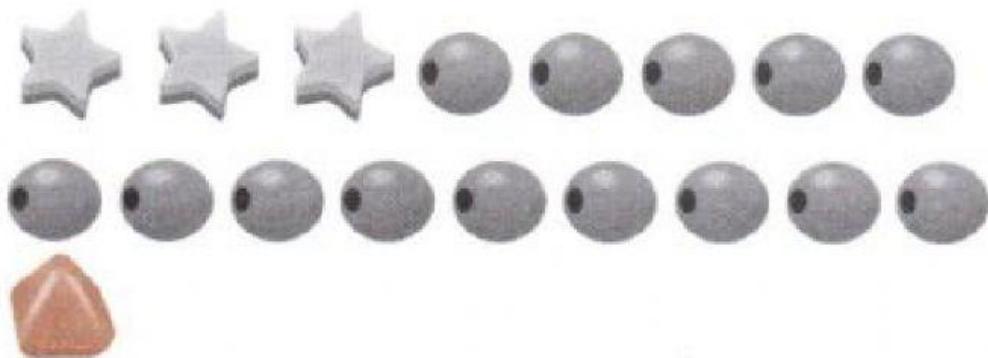

b. 7, 12, 8, 11, 12, 10, 12, 7, 8, 12, 13, 10. **The mode:** _____

c. 4, 6, 12, 4, 6, 4, 10, 4, 5, 4, 12, 11, 10. **The mode:** _____

6. The table shows the scores of some pupils in a mathematics quiz. Find the mode from the data. **The mode:** _____ [1]

| Name | Score |
|-------|-------|
| Ann | 5 |
| Blar | 4 |
| Cydia | 7 |
| Don | 6 |
| Eric | 5 |
| Fong | 7 |
| Greg | 3 |
| Han | 6 |
| Iris | 8 |
| Jerry | 7 |
| Kay | 4 |

7. There are 18 wooden beads in a bag. [7]
Amy picks a bead from the bag.

a. Complete the table by describing the likelihood of the events.

Choose from the words below. [5]

| | | | |
|--------|----------|---------|------------|
| Likely | Unlikely | Certain | Impossible |
|--------|----------|---------|------------|

| Event | Likelihood |
|------------------------|------------|
| Picking a star bead | |
| Picking a round bead | |
| Picking a wooden bead | |
| Picking a pyramid bead | |
| Picking a glass bead | |

b. Explain your answer for the likelihood of picking a glass bead. [2]

8. State whether each of the statements is true or false.

[3]

Explain your answers.

a. There is an equal chance of getting heads or tails when flipping a coin.

b. A birthday party is to be held on a weekend.

So it is certain that the party will be on a Thursday.

c. It is impossible to pick a green pen from a bag containing red and blue pens.

9. Write the missing numbers.

[2]

a.

start time

end time

The second hand has moved ____ seconds.

b.

start time

end time

The second hand has moved ____ seconds.

10. The table shows David's activities.

[3]

Write each time using 24-hour clock.

| Activity | Time | |
|-----------------------------------|---|--|
| | 12-hour clock | 24-hour clock |
| Photography in the afternoon |  |  |
| Dinner |  |  |
| Drama with puppets in the evening |  |  |

11. The clocks below shows the times that a show started and ended. [1]

How long did the show last?

start time

end time

_____ h _____ min

12. Complete the table.

| Name | Leaving Time | Duration | Arrived time |
|--------|--------------|----------|--------------|
| Dastan | 06:42 | 18 min | |
| Kalky | 06:36 | 27 min | |
| Ilmi | 06:14 | | 06:41 |
| Bilqis | | 38 min | 06:42 |

[4]

13. Write the missing numbers.

- 12th September → 26th September = _____ weeks _____ days later
- 5th May → 21st May = _____ weeks _____ days later
- 16th July → __ July = 4 days later
- 4th August → __ September = 2 weeks 2 days later

[4]

14. Ahsan was born on 17th January

Nadine 2 months younger than him.

[1]

When was Nadine born? _____

15. Aika planted some mangrove seedlings in October 2008.

The seedlings grew into trees in December 2013.

[1]

How long did the seedlings take to become trees? _____
