57. A. and B. but C. so D. because

Read the following passage and mark the letter A, B, C, or D

LIVEWORKSHEETS

Environmental pollution is a term that refers to all the ways by which man pollutes his surroundings. Man dirties the air with gases and smoke, contaminates the water with chemicals and other substances, and damages the soil with too many fertilizers and pesticides. Man also pollutes his surroundings in various other ways. For example, people ruin natural beauty by scattering junk and waste on the land and in the water. Environmental pollution is one of the most serious problems facing mankind today. Air, water and soil are necessary to the survival of all living things. Badly polluted air can cause illness, and even death. Polluted water kills fish and other marine life. Pollution of soil reduces the amount of land that is available for growing food. Environmental pollution also brings bad things to man 's beautiful natural world.

58. In which way do people cause air pollution?

A. Man throws garbage on the land.

B. Man dirties the air with exhausted gases and smoke.

C. Man damages the soil with fertilizers and pesticides.

D. Man contaminates the soil with chemicals and other substances.

59. What kind of environment pollution is caused by chemicals and substances in the seas, rivers and lakes?

A. Deforestation B. Water pollution C. Air pollution D. Soil pollution

60. Why is environmental pollution considered one of the most serious problems?

A. Because it can cause illness and even death

B. Because it can kill fish and other marine life

C. Because it can reduce the land for growing food

D. all are correct

61. What are the important elements to the survival of all living things mentioned in this text?

A. Food and water B. Air and food

C. Air, water and soil D. Water and soil

Join our 3Rs Club today and you will save the earth

The purpose of our club is to encourage all the students to go "green". There are a number of ways we can do to reduce, reuse and recycle.

What can we reduce?

LIVEWORKSHEETS

We can reduce rubbish. We should use reusable bags rather than plastics bags. We should buy things we really need. We should not throw old items away. We should give them to charity. We should save energy by using less electricity and water. We should also use less paper.

What can we reuse?

We can reuse bottles, cans or boxes. We can also exchange used books and clothes with friends.

What can we recycle?

We can recycle used paper, glass bottles and cans. Recycling also saves energy.

62. The aim of the 3Rs Club is to_____.

A. reduce rubbish B. reuse old items C. save the earth D. save money

63. We shouldn't use_____.

A. reusable bags B. plastic bags C. old items D. electricity

64. If we don't use old items, we should_____.

A. give them to charity B. put them in rubbish bins C. sell them D. buy them

65. If we use less water, you can_____.

A. save paper B. save electricity C. save energy D. save rubbish

There are many things we can do to improve the environment around us. Firstly, we encourage our family members to go to work and to school by bus. It will help to reduce the air pollution. Secondly, we ask our friends to pick up rubbish in parks or in streets. It will help to make the parks and streets clean. Thirdly, we tell our family members and friends to save energy by turning off lights, TVs and computers when we don't use them. ***This*** will help to save electricity. Fourthly, we encourage people to use reusable bags instead of plastic bags. Finally, we ask our friends to give old clothes to charity instead of throwing them away. If we do these things well, we will take great part in improving our environment.

66. we encourage our family members to go to work and to school _____.

A. by car B. by motorbike C. on foot D. by bus

67. What do we ask our friends to do in the parks or in streets?

A. pick up rubbish B. reusable bags C. save electricity D. give old clothes
