ACTIVITY 1: Plate Tectonics:

The Earth:

The Earth is a planet, shaped like a sphere.

The Earth is made of different layers.

1. The Earth is shaped like a

2. The Erath is made up of ..... different layers:

   2 4 6 8.

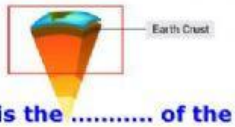

3. Choose the correct order of the Earths layers from where we live:

Mantle	Outer core	Inner Core	Crust
Inner Core	Crust	Mantle	Outer core
Crust	Mantle	Outer Core	Inner core
Crust	Mantle	Inner Core	Outer Core

The Crust:

The crust is the outer layer of the Earth.

The crust is made of solid rocks.
All lands and oceans sit on the Earth's crust.

4. The Crust is the ..... of the Earth.

   Inner layer Outer layer Thin Layer

5. The Crust is made up of:

   Sand water Ice solid rocks

6. All lands and oceans sit on the Earth's

   Mantle Inner Core Crust Outer core

The Mantle:

Under the crust is a layer made of melted rocks.

This layer is called the mantle.

7. The Mantle is made up of:

Solid rocks Melted rocks

Soft rocks Hard rocks
