

## 3-Digit Number in Expanded Form

### Grade 2

1 Write the value of the base ten pieces. Then write an equation to show the total value in expanded form.

	Hundreds	Tens	Ones	Equation
<b>ex</b>	200 	40 	5 	$200 + 40 + 5 = 245$
<b>a</b>				
<b>b</b>				

Which has the greater total, part *a* or part *b*?

1 Complete each equation by writing the number in standard form.

<b>example</b> $300 + 20 + 9 = \underline{329}$	<b>a</b> $800 + 40 + 5 = \underline{\hspace{2cm}}$
<b>b</b> $500 + 8 = \underline{\hspace{2cm}}$	<b>c</b> $600 + 20 = \underline{\hspace{2cm}}$
<b>d</b> $500 + 80 + 7 = \underline{\hspace{2cm}}$	<b>e</b> $900 + 10 + 4 = \underline{\hspace{2cm}}$

2 Complete each equation by writing the number in expanded form.

<b>example</b> $659 = \underline{600 + 50 + 9}$	<b>a</b> $437 = \underline{\hspace{2cm}}$
<b>b</b> $\underline{\hspace{2cm}} = 508$	<b>c</b> $549 = \underline{\hspace{2cm}}$
<b>d</b> $692 = \underline{\hspace{2cm}}$	<b>e</b> $\underline{\hspace{2cm}} = 749$
