GRADE 6 / UNIT 9
WORKSHEET

D. Complete the sentences with the words below.

wasting	save	classify	pollution	electric	reduce	recycle

1. There are many things to do to _____ our planet.
2. Don't forget to unplug _____ devices when you don't use them.
3. You should _____ the rubbish as paper, plastic, metal and glass.
4. Trees _____ the carbon dioxide in the atmosphere.
5. It is important to stop _____ water and energy.
6. There are three types of _____; air, water and land.
7. Which materials can you _____?

Martin: Hi, everyone! My name is Martin. I live in Manchester, the U.K. In my hometown, global warming is an important problem. Factories and cars produce harmful gases. People in my country never turn off the lights or unplug electric devices. Most of them drive their private cars instead of using public transportation.

Teacher: Thank you, Martin. Do you have any suggestions for your friend? What should British people do to stop global warming?

Kevin: First of all, they should walk or cycle for short distances.

Daisy: They should plant more trees. Forests help reduce the carbon dioxide in the atmosphere.

Jeremy: They shouldn't buy unnecessary things in the market. We should reuse glass jars, pots and carrier bags. They should also use eco-friendly products.

Nathan: They should also sort out our garbage.

E. Read the conversation and write TRUE or FALSE.

1. Martin is worried about water pollution. _____
2. Factories don't use filters in Manchester. _____
3. British people waste energy. _____
4. British people prefer public transportation. _____
5. Jeremy thinks that British people should classify their garbage. _____
