

Press Play

Complete the blanks below using the past simple form of the verbs in parentheses.

On Time

Surfaces

So I'll be _____ time

Don't need a Rolex _____ my wrist

To know I've got your little hand

_____ mine

And we can throw out all our issues

Watch the minutes cruise by

Who cares if it makes no sense

And we don't have to choose wisely,
know

That I'll always be _____ time

Say the word and I promise I'll be right
outside

Give me a minute and you'll see I'm
not a regular guy

I got a tic that makes me always
wanna roll the dice

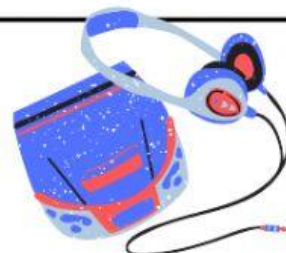

If they say we won't make it tell 'em I
ain't takin' advice

And I'll be over when we're older,
waitin' _____ your door

I'll only leave you like the tide washes
back to shore

I promise everything between, after,
and before

[Chorus]

Haven't checked my E.T.A., it's been
a cool minute

But leave the light on for me, this is
not a new visit

Used to pick you up from class
_____ my blue civic

Didn't care what we were driving,
long as you _____ it

And I'll be over when we're older,
waitin' _____ your door

I'll only leave you like the tide
washes back to shore

I promise everything between, after,
and before

Yeah, yeah yeah

[Chorus]
