Activity 13

Theory

Test your final design of a laptop stand. Does it meet the basic requirements?

If your laptop stand does not meet the requirements, go back and try to fix it. Then, write your results.

Tests	Result	
Does the laptop stand **raise the height of the screen to be nearer to eye level**?	☐ No	☐ Yes
Does the laptop stand have the **keyboard at a suitable angle for typing**?	☐ No	☐ Yes
Does the laptop stand have a suitable top that can support the laptop?	☐ No	☐ Yes
Does the laptop stand **improve the ergonomics** of using a laptop?	☐ No	☐ Yes

Did you answer "**No**" to any of the testing questions? If so, can you change your design to improve your test score?

Explain any changes that you made to your design.

Write your answer below.
