

Calculate the estimate difference.

a) $4738 - 2827$ (estimate by rounding off to nearest 10's)

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

b) $7639 - 5784$ (estimate by rounding off to nearest 100's)

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$
