

## Mathématiques : je détermine le volume d'une figure de base

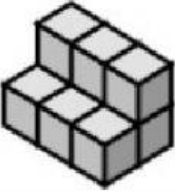

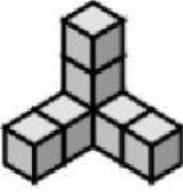

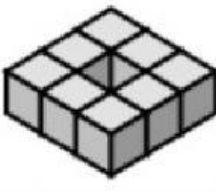

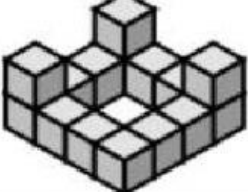

**Énoncé 1.** Que vaut le volume des objets suivants ?

			
V =    ×    ×	V =    ×    ×	V =    ×    ×	V =    ×    ×
V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>

  

			
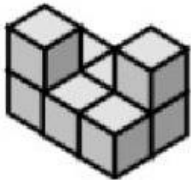

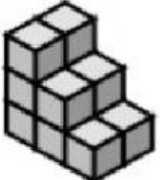

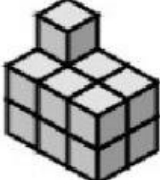

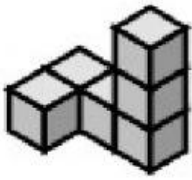

V =    ×    ×	V =    ×    ×	V =    ×    ×	V =    ×    ×
V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>

  

			
V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>

  

			
V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>	V =            u.c <sup>3</sup>

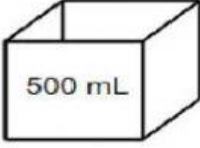

**Énoncé 2.** Dans chaque cas, indique le nombre de fois qu'il faut déverser le contenant plein pour remplir une bouteille de 1L (= 1000 ml).
