SONG "BLACK LIVES MATTER" BY HOPSTER

Don't be afraid, you have a choice, speak up,
use your voice, say it:
that's not fair, it's not okay
it's not right for you to be that way

Our skin colours are as good as each other
That's why we should be treated the same
But for far too long, people have suffered
So all around the world we are saying:
THAT MUST CHANGE,

Why we don't love each other?
Make some noise, say it together: BLM
voice can be everywhere
let's say it together, let's change the world
Make it better
BLACK LIVES MATTER

So if you see someone being mean to another
because of the colour of their skin
tell them: THAT'S NOT RIGHT
they're sisters and brothers
You not need to hate when you can let love in

Don't be afraid, you have a choice, speak up,
use your voice, say it:
that's not fair, it's not okay
it's not right for you to be that way
