THE UNITED NATIONS

The United Nations (UN) is a group of countries that work together to protect people and prevent wars between countries. This association was created after **World War II** to promote peace and positive relations between countries around the world. There are currently 193 countries that are part of the United Nations.

Their main goal is to make the world a better place and improve living conditions for all people.

There were previous organizations but some countries ignore them and decided to solve problems with wars, the winners of World War II formed the United Nations in 1945.

FUNCTIONS OF THE UNITED NATIONS

- To maintain peace and security
- To protect human rights
- To provide humanitarian assistance when needed
