# My Favorite Type of Music

- **Read the following text**

There are many types of music in the world. My favorite type is pop music. I love this type of music because it enables me to enjoy passing time whenever I feel bored. Some of the most famous musicians are pop singers. Michael Jackson, Maria Carey, Ed Sheeran, Justin Bieber, and the list goes on. Pop music often includes danceable tempo, easy to remember lyrics, and the music lyrics are often flashy.

Sometimes, when I'm doing homework on my computer, I play music on YouTube in the background. I also watch music videos between study sessions when I take breaks. My favorite pop song is James Arthur's "Impossible." It's a beautiful song about hope and it makes me think about working harder. All of my friends love this song and we listen to it together. We also love listening to The Weeknd's songs, as he's a talented musician.

Live music is incredibly entertaining. Whenever a pop artist is performing in a show near our city, I beg my parents to take me. Music concerts are full of fun, you see people singing along, the public dancing, and at the end of the show, you can rush to the singer and ask for an autograph. Furthermore, I don't recommend going to concerts without parental accompaniment, because some bad people go there also.
