

Completa en español la parte subrayada faltante.

1. It is important to be clear about how prices rise and fall in a free market economy.
2. Prices rise because the amount demanded exceeds the amount supplied at existing prices, and fall because the amount supplied exceeds the amount demanded at existing prices.
3. When job opportunities in a community decline, and people prefer to move to other places, the value of living in their former community also declines.
4. When the prices of houses in the community fall, they reflect the underlying fact: the surplus of houses.
