

Lyrics: "Goodbye" - A Minecraft Original Music...

Blacklite District

 jonathangf960

You can say hello

To the man with no
You can right by him
And He'll take you home
Down the road
That you always
To the same old places
That you always go
See the same old faces
You already know
In the same bad
That you've always known
Send the same old message
That you set in
But it don't mean nothing
When you're

I fight to see
For what I
But all this
Is killing me

So this is it

I never
The fear

Goodbye

Say goodbye to the
That you _____ with your life
Say goodbye
To the dark
Goodbye
Say goodbye to the
And the
You hold inside
Say goodbye to that old life
Goodbye

Time to

It's time to
I can feel it creeping
Up my
Time to set it straight
So here's your sign
I'm gonna take it all
Cause you know it's mine
I'm gonna spend it all
And it's on your
I'm gonna break you all
And I'll feel just fine
I'm gonna take the
If I fit the crime
And yeah I fit the crime

I fight to see
For what I believe
But all this doubt
Is killing me

So this is it

I never quit
The fear overcoming

Goodbye

Say goodbye to the knife
That you sharpen with your life
Say goodbye
To the dark side
Goodbye
Say goodbye to the lies
And the pain
You hold inside
Say goodbye to that old life
Goodbye

Gone are the days of old

Lost are the lies we're told
Now I can
I'm glad to say goodbye
Look to the times ahead
Breath like it's your dying
Fell like you never fell
Be glad to say goodbye

Goodbye

Fell like you never fell
Be glad to say goodbye

Goodbye

Say goodbye to the knife
That you sharpen with your life

Say goodbye
To the dark side

Goodbye
Say goodbye to the lies

And the pain
You hold inside

Say goodbye to that old life
Goodbye

Goodbye

(Goodbye)

Goodbye

(Goodbye)

Goodbye

Now you know that

This is goodbye

Goodbye

Now you know that

This is goodbye

Goodbye
