Last month, I read an amazing book – and I finished it 0 more quickly (quick) than any book I've ever read! It was called *Mountain*, and it's about a young actor called Oliver who works <sup>1</sup>                    (hard) to become famous, but doesn't succeed. So he decides to try something different. One day he reads about a group who want to go climbing in the mountains. So he <sup>2</sup>                    (quick) sends an email to the group. Two weeks later, they all set off <sup>3</sup>                    (early) to go climbing.

The others in the group think that Oliver will climb <sup>4</sup>                    (slow) than them – but he climbs the mountain <sup>5</sup>                    (easy) – and he reaches the top <sup>6</sup>                    (fast) of the whole group! But Oliver doesn't take photos as <sup>7</sup>                    (good) as another member of the group, who photographs the views more <sup>8</sup>                    (beautiful) than in any other photos.

When they finally arrive at the top of the mountain, Oliver is smiling <sup>9</sup>                    (happy), and they all cheer <sup>10</sup>                    (loud). And Oliver finally becomes famous!
