

Spain:

Territorial Organisation

Spain's territory is divided into 17 **autonomous communities** and 2 **autonomous cities** in North Africa.

Each community is divided into **provinces**.
Provinces are then divided into **municipalities**.

This division of territory helps to organise all of the people into smaller groups. It also allows us to divide money and resources between the people and provide services that they need.

Can you label the 19
autonomous areas?
Choose the correct name.
