Electronic books or e-books are electronic versions of printed books. They can be viewed on a computer screen or on an electronic book reader.

E-books can be purchased on the Internet from publishers or e-bookstores. We can only pay for these books using credit or debit cards. Purchasing an e-book is faster compared to purchasing a book from a bookstore.

Nowadays, more people are choosing to read e-books. This is because the materials can be downloaded and accessed anywhere. E-books are also environmentally friendly because they reduce the number of trees being cut.

The future of e-books is bright. It allows us to bring the whole library with us wherever we go. They are slowly gaining popularity because of its convenience.
