

The best hamster challenge: drag and drop

*The first obstacle is a Wooden Dummy.
She has passed it successfully!*

*By spinning the wheel, the Hamster makes
tiny blue balls pop up of the hole.*

*The next challenge is a wheel where it is so
cosy to scratch your ear 😊!*

*An emergency exit is opened. Welcome,
dear Candy, to mazes and obstacle courses!*

*Following a green arrow, our super hero uses
a seesaw structure.*

*After enjoying the pool of balls, our protagonist
heads for a transparent tube.*

*In a few seconds, he overcomes fearlessly a
wooden hanging ladder.*
