

# Concept HW\_Grade-5\_Percentage & Unitary Method

## An Introduction to Percentages

1. Find the percent of the number.

- |                |                |                |
|----------------|----------------|----------------|
| 1. 10% of 120  | 2. 50% of 46   | 3. 25% of 224  |
| 4. 75% of 48   | 5. 20% of 325  | 6. 30% of 80   |
| 7. 80% of 240  | 8. 15% of 180  | 9. 60% of 315  |
| 10. 40% of 300 | 11. 90% of 200 | 12. 35% of 120 |

2. Bikes with a regular price of \$120 are offered at a 35% discount. What is the discount?

3. What percent of each square is shaded?
