

THINKING ABOUT THE FUTURE

Remember to use "going to" for plans and arrangements and "will" for predictions and opinions.

Do you think robots will replace humans one day? Why? Why not?

Talk about something you are going to buy soon.

What are your plans for next week?

What do you think your children will look like?

Talk about someone special you are going to see in your summer holidays.

What will a Guarda be like in 50 years?

Three things that will not happen to you this year.

What country will you visit one day? Why do you want to visit it?

What are you going to do after this class?

Write about something a friend is going to do soon.

What important thing will be
invented or found in the next years?
