

Demuestro lo que sé de las tablas de x

$3 \times 4 = \square$

$7 \times 8 = \square$

$2 \times 3 = \square$

$1 \times 9 = \square$

$7 \times 1 = \square$

$7 \times 4 = \square$

$7 \times 8 = \square$

$10 \times 9 = \square$

$2 \times 5 = \square$

$8 \times 4 = \square$

$1 \times 1 = \square$

$9 \times 10 = \square$

$9 \times 4 = \square$

$5 \times 3 = \square$

$8 \times 2 = \square$

$3 \times 2 = \square$

$4 \times 6 = \square$

$6 \times 7 = \square$

$7 \times 6 = \square$

$4 \times 9 = \square$

$2 \times 7 = \square$

$9 \times 2 = \square$

$8 \times 7 = \square$

$3 \times 8 = \square$

$3 \times 8 = \square$

$5 \times 4 = \square$

$4 \times 5 = \square$

$9 \times 7 = \square$

$6 \times 5 = \square$

$2 \times 4 = \square$

$5 \times 9 = \square$

$2 \times 8 = \square$

$6 \times 7 = \square$

$3 \times 9 = \square$

$5 \times 3 = \square$

$3 \times 3 = \square$

$6 \times 7 = \square$

$6 \times 6 = \square$

$7 \times 3 = \square$

$8 \times 5 = \square$

$4 \times 6 = \square$

$4 \times 4 = \square$

$2 \times 9 = \square$

$3 \times 8 = \square$

$6 \times 5 = \square$

$5 \times 8 = \square$

$6 \times 7 = \square$

$6 \times 3 = \square$
