Colegio Episcopal La Anunciación

Final English Test

First Name: _____ Last Name: _____ Grade: _____

Date: _____ Teacher: _____

I- **Reading Comprehension**: Read the text. Choose the best answer

Dear Student,

Consider the benefits of living on campus!

If you live on campus, you will meet a lot of people. This will help you make friends and find people to study with after class.
You will also be closer to your teachers. If you have questions, you can go to their offices and get help.
Also, if you live on campus, you will be closer to the library. This may give you a place to study late at night if you have a test.
Living on campus is not very expensive. If you share a room with another person, you won't have to pay a lot of money. You might also save money on gas because you won't have to drive every day. You can just walk to class, and this means you might get to class earlier.
Think about it. You will meet new people, be close to your teachers, and save money. If you consider all of these advantages, you will agree that living on campus might be the right choice for you.

Campus Housing Department
