**Read the passage, then write true (T) or false (F):**

Usually, people sleep between seven and eight hours a day, although some people need less than this and some need more. But millions of people have trouble getting to sleep every night. Many people do not know why they have insomnia (*chúng mất ngủ*). Most people know that tea and coffee often make it difficult to go to sleep because they contain caffeine. But some medicines, such as cold tablets, also contain caffeine. Sleeping pills can help you fall asleep, but when you wake up the next morning you feel tired.

41. .... Everyone needs eight hours' sleep a night.
42. .... Millions of people have trouble getting to sleep every night.
43. .... All people know why they have insomnia
44. .... Caffeine helps you fall asleep.
45. .... Sleeping pills can help you fall asleep and don't make you tired later.
