

## Text “Weather”

Task: Complete text with the following words:

Sun, rains, English, shining, strong, warm, rainy, cloudy

### Today's Weather and My Attitude to It

For the last several days the weather has been unsettled. But I like it most of all.

When I woke up today, the day seemed to be dull and grey. But it cleared up, and now the sun is \_\_\_\_\_ brightly, it is very \_\_\_\_\_. I have noticed that most of the days start like that: the sky is \_\_\_\_\_, there is no \_\_\_\_\_, the wind is rather \_\_\_\_\_, but then it often clears up.

I like warm weather very much. But I don't like extremes: it is not good when it is sultry. And the worst weather in winter is sleet: I guess no one wants to leave his house in such weather.

In summer it sometimes \_\_\_\_\_, but usually the pools dry up quickly, and thunderstorms, if they occur, are not long. \_\_\_\_\_ summer is just unbearable!

I think weather is very important not only for crops, but also for people's mood. That's why people pay so much attention to weather forecasts, and even believe in different signs.

Discussing the weather is one of the national features of the \_\_\_\_\_. But our people also like to discuss the weather.
