

Panic Room

Song by Au/Ra

(Welcome to the... Welcome to the)

Hell raising, hair raising

I'm _____ for the worst

So frightening, face whitening

Fear that you can't reverse

My _____ has no signal

It's making my skin crawl

The _____ is so loud

The lights spark and flicker

With _____ much bigger

Than I can control now

Welcome to the panic room

Where all your darkest fears are gonna

Come for you, _____ for you

Welcome to the panic room

You'll know I wasn't joking

When you see them too, see them too

Welcome to the panic room

Still waiting, hands _____

Maybe the coast will clear

But these voices, these strange noises

They followed me in here

My _____ has no signal

It's making my skin crawl

The _____ is so loud

The lights spark and flicker

With _____ much bigger

Than I can control now

Welcome to the panic room

Where all your darkest fears are gonna

Come for you, _____ for you

Welcome to the panic room

You'll know I wasn't joking

When you see them too, see them too

Welcome to the panic room

There's no _____ wolves now

'Cause the truth has settled in

Hiding under goose down

For your _____ to begin

There's no _____ wolves now

'Cause the truth has settled in

Hiding under goose down

For your _____ to begin

Welcome to the panic room

Where all your darkest fears are gonna

Come for you, _____ for you

Welcome to the panic room

You'll know I wasn't joking

When you see them too, see them too

Hell raising, hair raising

I'm _____ for the worst
