

Número anterior y posterior

Cuenta la cantidad que se encuentra al centro y escribe el número que corresponde, de igual forma has con el número anterior (quitando uno) y posterior (agregando uno).

The image shows two horizontal number lines, each with three tick marks and three empty blue circles below them for answers. The top number line is populated with monkeys. Above the first tick mark, there are two monkeys; the second one is crossed out with a large red 'X', and a red curved arrow points from it to the left. Above the second tick mark, there are two monkeys. Above the third tick mark, there are two monkeys; the second one is circled in red, and a green curved arrow points from it to the right. The bottom number line has a single cockatiel positioned above the middle tick mark. A red curved arrow points left from the bird, and a green curved arrow points right from the bird.
