Reading

Use the following to answer questions 21-23:

Read the text. Choose *True* or *False*.

Tina's daughter, Kelly, will be 16 years old soon and Tina wants to give her daughter a party. Tina is very organized and already has a plan. First, she is going to call Kelly's friends and invite them. Next, Tina is going to make a list of food and decorations that she is going to buy. The day before the party, she is going to go shopping and get everything on her list. On the day of the party, Tina and Kelly are going to decorate the house and prepare the food. Tina is going to make a special cake with 16 candles on it.

And that's how Tina imagines the party: the guests will arrive at 7:00 and Kelly will turn on some music. Everyone will dance and talk. At 8:00, Tina will light the candles on the cake, and everyone will sing "Happy Birthday" to Kelly. When they finish singing, Kelly will blow out the candles. Then everyone will eat the cake. After they eat cake, Kelly will open the presents and be surprised by all of the wonderful gifts. Finally, at 10:00, the guests will begin to leave. After the last guest leaves, Tina and Kelly will clean up the house. Then Kelly will give her mother a hug and thank her for the wonderful party.

Well, that's how Tina planned and imagined the party for Kelly... But she'd better ask Kelly about her plans first. The party Kelly and her teenage friends have in mind couldn't be more different...
