HANSEL AND GRETEL

The two children heard their parents talk and they were very scared. "We don't want to live in the forest!" they said to each other. So, the clever children came up with a plan to save themselves.

That night, they quietly filled their pockets with tiny pebbles.

The next morning, as the woodcutter took them to the middle of the forest, Hansel and Gretel dropped the pebbles all along the way.

1-Who heard their parents?

2-How were they?

3-Where didn´t they want to live?

4-Where did the woodcutter take the children?
