

ACTIVIDAD

1. Arrastra las partes de la ventana de configurar fecha y hora del computador.

The screenshot shows the 'Propiedades de Fecha y hora' (Date and Time Properties) window. It has three tabs: 'Fecha y hora' (selected), 'Zona horaria' (Time zone), and 'Hora de Internet' (Internet time). The 'Fecha y hora' tab is divided into 'Fecha' (Date) and 'Hora' (Time) sections. The 'Fecha' section includes a month/year dropdown (showing 'enero' and '2002') and a calendar grid. The 'Hora' section includes a clock face and a time input field (showing '2:03:30'). Colored boxes and arrows indicate where to place labels:

- Orange box: Points to the month/year dropdown.
- Green box: Points to the calendar grid.
- Red box: Points to the time input field.
- Purple box: Points to the clock face.

Below the window, there are four colored buttons for labeling:

- MES (Orange)
- HORA (Red)
- DÍA (Green)
- AÑO (Purple)

2. Selecciona donde se visualiza la fecha y hora del computador.

- A. En Wordpad.
- B. Barra de tareas.
- C. Ventana de Google Chrome.
