

Put the clocks next to the correct times.

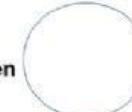

Hello! I'm Nick and I'm 24 years old. I work a lot during the week, but on weekends I rest and watch movies. I love watching movies, and my favourite actor is Johnny Depp. I know everything about him, including his routine! Let me share it with you.

Johnny Depp wakes up at **five o'clock**. 

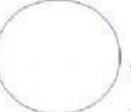

Then, he has breakfast and gets dressed. He leaves

home at **a quarter past six** 

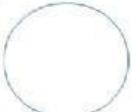

because he starts work in Hollywood Studios at **half past six**. 

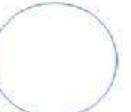

There, he works for some hours, and at **a quarter past ten** 

he has a break. After that, he continues

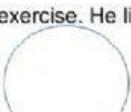

working until **half past one** 

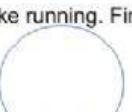

when he has lunch. Next, he works until a quarter to three and then he

finishes. He gets home at **ten past four** 

and relaxes. Then, at **a quarter to six** 

he does some exercise. He likes going to the gym but he doesn't like running. Finally, he has dinner

at **ten to nine** 

and goes to bed at **eleven o'clock** .

I hope now you know more about my favourite actor. Who's your favourite actor?
