

Name:

Att. No.

TASK 1. Read the text, answer the questions and identify the generic structure.

How to Use Digital Camera

You need:

- A digital camera
- An object (friends or something that you can find)

Follow the steps below to make pictures:

- Hold up the camera and center the object in the LCD
- Move closer or use the zoom control for the result you want
- When you are ready to take the picture, hold the shutter halfway. it is very important, so the camera sets the focus, shutter speed, and various other calculations. This may take a few seconds.
- A light should appear that let you know the camera is set to go
- Press shutter all the way down.

It may be necessary to turn off the LCD and use the view finder when there is more extreme sunlight to conserve battery. The glare from the LCD does not work well with more bright light.

1. What is the social function of the text?
2. What do we need to use camera?
3. What is the first step to use camera?
4. What type of camera is used in the text?
5. What should we do after turning on the camera?
6. What is the last step of the text?
7. What should we do after we are ready to take the picture?
8. What sign does make us know that the camera is set to go?
