

Practice 2 Angles of a Triangle

2. Find the value of the unknown marked angles.

(a) Find $\angle ACB$.

$$\begin{aligned}\angle ACB &= \underline{\hspace{1cm}}^\circ - \underline{\hspace{1cm}}^\circ - \underline{\hspace{1cm}}^\circ \\ &= \underline{\hspace{1cm}}^\circ\end{aligned}$$

(b) Find $\angle FDE$.
