PERSONALITY TRATES

DAVID: Let's continue with the second part of our program. I have invited Bertha. She's going to tell us about the character and personality traits for some signs. Bertha. What do you have for us today?

BERTHA: Hi David. Well, let's start with Libra. People with this sign are very sociable. They get unwell with other people. They use their common sense, and they are sensible. They're proud and expect admiration. In fact, they can be a little vein and they can also be very impatient and not accept delay calmly.

DAVID: Wow. So, Libras are sociable, sensible, vein and impatient.

BERTHA: That's right now let's talk about Virgo. You can trust these people because they are reliable. They look into things deeply and they are very analytical, but they have a problem. They are very indecisive and never know what they're going to do from one minute to the next a good characteristic is that they don't think they are better than others. They are very humble.

DAVID: Okay, let me see. So people from Virgo are reliable, analytical, indecisive, and humble.

BERTHA: Yes. Let me continue with Leo. They can be very ambitious people. They are often obsessed with wealth and fame, et cetera. Also, you never know what they're going to do because they are really unpredictable. Another characteristic of Leo is that they're really curious and love finding out people's personal information. Finally, they hate to lose. They are very competitive people.

DAVID: Gee, so Leos are ambitious, unpredictable, curious, and competitive.

BERTHA: You got it. Let's finish with Pisces. They are very sensitive and become angrier upset easily that tend to hold back their feelings. So they're reserved people. The problem with Pisces is that they don't care about the consequences of their actions. Hence they can be very irresponsible.

DAVID: That makes sense. My best friend is a Pisces. So to resume Pisces are sensitive, reserved, and irresponsible.

BERTHA: That's correct. If you would like to know more about other signs of the Zodiac.
