ENGLISH 2 SHINE

Writing

Read Kate´s example about her neighborhood.Write a paragraph about YOUR neighborhood.Describe what type of neighborhood it is and what places are or aren´t in your area.

I live in a very nice neighborhood near my office, so I walk or ride my bike to work every morning. It's a very green area with many trees and a small but beautiful park. It's also very convenient. There is a shopping mall behind my building. In the mall, there are two drugstores, a bank, and a grocery store. And there is a café with great food and good prices. I get coffee there every morning. But there isn't a library, and most books at the bookstore are expensive. Oh well, nothing is perfect!
