Learning to cook

I'm learning to cook and my dad is helping me. I'm using a cooking app for kids. I tell the app about the food we've got, then the app gives me a recipe. It's really cool!

Monday

We want to make something for dinner.

In our fridge, **there isn't** any fish, but **there's some** meat. **There are** some carrots, potatoes and onions too.

You've got the ingredients to make Irish stew. It's a delicious dish made with meat and vegetables.

Thursday

Today, we want to make a cake, but **there isn't any** butter in the fridge.

There isn't any flour in the cupboard either. **There are some** nuts and **there's some** sugar. **There are some** eggs in the fridge too.

You've got the ingredients to make Santiago cake, a delicious cake from Spain.

Saturday

I want to make some food for a party. In the fridge, **there's** some cheese.

There aren't any potatoes, but **there are some** onions and mushrooms. **There's some** salt, flour and olive oil in the cupboard too.

You can make a mushroom pizza. It's the perfect party food!

3. Copy and complete.

- Joel wants to make a cake on _____.
- On Thursday, there are some _____ in the fridge.
- The ingredients for Irish stew are meat, carrots, _____ and onions.
- The website says _____ is the perfect party food.
- On Monday, there isn't any _____ in the fridge.
- The recipe for _____ has got three ingredients.
