

Listen and complete the conversation.

Adam Did you hear they have cameras on all the buses now?

Selina Yeah. They should be put in all public places.

Adam _____, you're in favor of them?

Selina Oh yeah. For a couple of reasons. I mean, _____ of all, they're a good deterrent – people know they'll get caught if they cause trouble or whatever. And _____, they make sure people pay.

Adam Yeah . . . that's true.

Selina And _____ thing is, for the drivers – especially late at night. I mean, _____, it's safer for them.

Adam Well, you've got a point there. But on the _____, don't you think all these cameras are a little intrusive? The thing is, it's like an invasion of privacy – someone watching you all the time.

Selina I must admit, I never really thought of it that way.
