

Concept HW_Grade-6_Data Handling

The Interpretation of Bar Graphs

2 farms harvested a lot of brocolli heads during 5 weeks in the brocolli season. The following bar graph shows the number of brocolli heads they picked per week. Use the information to answer the questions.

- 1) How many brocolli heads did farm 2 pick in week1?
- 2) How many brocolli heads were picked by both farms in these 5 weeks?
- 3) What percentage of the brocolli harvested in week 5 was picked by farm 2?
- 4) What percentage of the total number of brocolli was picked by farm 2?
- 5) What is the ratio of the picked brocolli heads in week 2 to that of week 3?
- 6) The farms get \$5 per 10 brocolli heads. How much money did the 2 farms earn in the first 3 weeks?
